## Compact cable routing with the Cable Helix

Table unit

End piece

Intermediate fixing

### Serpa cable helix

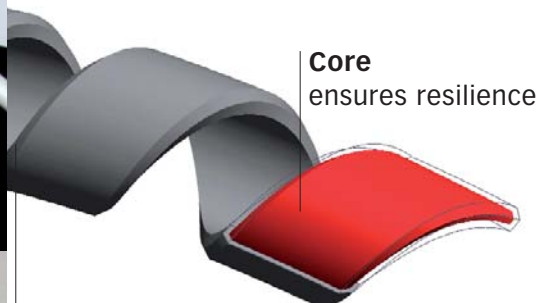

With the cable helix, you can arrange long cables into a neat strand and route them from their respective electric devices to the plug point. The Serpa cable helix prevents a cable chaos in your (home) office and avoids stumbling traps. Together with its accessories, the Serpa cable helix provides systematic tidiness.

- For vertical or horizontal cable routing
- Easy and quick to install
- Protects the cables
- Can be shortened individually
- Easy branching possible

### Dilastotec®

Two layer design involving two different functionally coordinated materials

### Sheath

protects the cables and feels good

### Length

150 cm
